TESTIMONIALS FROM PREVIOUS PARTICIPANTS

"The program gave me a broader understanding of missional ministry. It is difficult to practice anything during the pandemic...I work in congregational development with the Synod, so this has given me resources to use as I work with congregations in planning paths forward as we emerge from the pandemic." *Jo from Synod of Saskatchewan*

"Grateful for the zoom links that have enabled me to take part even when I could not attend. Each session has provided both inspiration and challenges for growth." *Nicole from Knox Presbyterian Church*

"This course helped me work out how to lead a congregation in common love, common practice, common purpose, common industry. It also helped me leverage the facilitator role in my own leadership, helping people process and put to action the vision we share in common." *Samuel Lee, The Tapestry Mundy Park*

"This course has dovetailed with a number of things happening at Grace (events and consultation) and one outcome that has been identified is growing a deeper knowledge and deeper relationship with God moves us into community with our neighbours." *Jake from Grace Presbyterian Church*
